Re: San Leandro's Draft Housing Element

To the City of San Leandro:

The Campaign for Fair Housing Elements thanks you for your thorough and thoughtful draft housing element. We appreciate the City's extensive efforts to engage the community, and to identify ways to make housing more accessible and affordable throughout the City.

While we would encourage faster removal of a wider variety of constraints, namely permitting by-right development of all types of housing throughout the City, we believe your draft substantially complies with State housing-element law. We look forward to the prompt implementation of your housing plan.

Please contact me with questions, and best of luck in alleviating the severe shortage of housing in the Bay Area.

Sincerely,

Keith Diggs
Housing Elements Advocacy Manager, YIMBY Law
